

"FLAWLESSLY PERFECT EXPERIENCE!"

- GAIL M.

Montclair Breast Center

MONTCLAIRBREASTCENTER.COM (973) 509-1818

3D MAMMOGRAM

With immediate, in-person results.

BREAST MRI

The most sensitive way to detect small breast cancers in dense breast tissue or in women at higher risk.

BREAST ULTRASOUND

Used liberally as supplemental screening or when an abnormality is found.

GENETIC TESTING

Available on-site with our Director of High Risk Surveillance. We encourage everyone who meets NCCN guidelines to be tested.

HIGH-RISK SURVEILLANCE

Women who meet high risk criteria are candidates for medication that can reduce breast cancer risk up to 85%. Our breast doctors discuss, prescribe and monitor these risk-reducing agents.

BREAST BIOPSY

Minimally invasive breast biopsies performed in-house by our team of experts.

BREAST SURGERY

When surgery is necessary, our patients have the safety and convenience of using our fully accredited ambulatory surgery center located on the lower level. Most surgeries are performed as outpatient procedures.

We are in-network with:

Horizon Blue Cross Blue Shield • UnitedHealthcare • Oxford
